Project Initialization and Planning Phase

Date	30 September 2026
Team ID	[Your Team ID]
Project Name	Streamline IT Procurement: Automating Standard Laptop Orders with Workflow Automation
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Through the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A corporate employee / IT procurement manager	Streamline standard laptop orders through automated workflows	The current manual approval process takes several days or weeks	Orders require manual email sign-offs without workflow integration	Frustrated with procurement delays and reduced productivity
